ULRICH BRUNNER
THE PEERLESS CRIMSON RED ROSE
FOR ALL CLIMES

CALIFORNIA
ROSE
POMONA, CALIF.

CLIMBING CECIL BRUNNER

Easily the most charming and popular of the Polyantha roses. Very robust and one of the strongest climbers in the rose family. Hardy and suitable for all sections.

California Rose Company

POMONA, CALIFORNIA

(Note change of address from Los Angeles to POMONA)

LARGEST GROWERS EVER-BLOOMING FIELD ROSES
IN THE WORLD

WHOLESALE PRICE LIST

FIELD GROWN ROSE BUSHES ON OWN ROOTS

POMONA is located 29 miles east of Los Angeles, on the Southern Pacific, Santa Fe and Salt Lake Railroads. Western Union and Postal Telegraph Companies. Telephone connection to our nursery. We believe we have the best soil, climatic conditions, etc., to be found out of doors; otherwise we would not be here. Our stock promises to be exceedingly fine this season.

YOUNG ROSE PLANTS. Own Roots.

All grown from wood taken from stock in the field.

If you are going to be in the market for young rose plants this coming season, we believe we can interest you—saving you some money, in our opinion, based upon our own experience, giving you plants which will pan out better results than eastern “forced” stuff—propagated from forced, weak wood. Our plants are out of doors in beds, absolutely without protection after established. They go as far as New York by express without soil on roots, in good condition. What we can offer you will be the same thing as we plant in the field ourselves. We propagate from July to November.

Send us your list of wants **now** for pricing, stating when wanted. By booking orders ahead we can save you money and gauge our propagations to better advantage.

To the Trade:

We sincerely thank you who have purchased of us in the past and for your fair treatment and prompt liquidation of accounts. We solicit your future business, and assure you of our wishes to give you honest treatment and full value for prices charged every time. If you are not on our books as a customer, we want you there, and if you will favor us with at least a portion of your trade, we will try and demonstrate to you that we not only wish for your present but future business from season to season.

OWN ROOT ROSES.

They are shapely and symmetrical and never run to wild roses. The principal stock used for budding is Manetti; this stock generally suckers quite badly, and its nature is to go dormant, or partially so, during the winter; therefore it impairs the blooming quality of constantly flowering sorts and is undesirable. With the amateur grower who does not understand the care of a budded plant he will naturally allow it to sucker; this will shortly run out or kill the variety budded in and he then possesses nothing but a wild rose.

We ship to nearly every state in the Union, and have no difficulty in laying plants down at the Atlantic coast in perfect condition. We have a special way of light packing for express shipments (without boxing) and can reach most distant points by this method of shipping in the same length of time mail would be in transit.

THE OLD WOMAN WAY.—Down in "Dixie Land" they produce certain varieties of roses by taking LONG hard-wood cuttings and planting directly in the field. This stock when dug has a LONG shank, making a cumbersome, ill-proportioned plant, neither suitable for potting, benching or a general shipping trade. Our roses are all grown from short soft wood cuttings, rooted in the sand.

TIME OF SHIPPING, TRANSPORTATION, ETC.

We can ship any time between December and April 1st; we cannot book orders for shipments earlier than December. Orders are booked in rotation as they are received; an order once booked and accepted is positively not subject to countermand under any circumstances, and all orders forwarded must be with this understanding.

WE MAKE NO CHARGE FOR PACKING OR BOXES, OR FOR DELIVERY TO FORWARDING COMPANIES. All quotations are on a basis of f. o. b. this city. All shipments by freight are released at a valuation of \$5.00 per cwt. unless otherwise instructed by the buyer. Express shipments are forwarded at "General Special" rate, and do not have to be prepaid. The better way for shipping a few hundred rose bushes is by express; there is no delay, no cartage to pay, and considering that we can pack for express transportation without boxing (freight shipments must be boxed) the difference in the cost of transportation by express over freight on ordinary quantities is so small that one can hardly afford to bother with slow and careless freight transit. Remember, express rates are "General Special," and if your local express agent does not understand it, refer him to his head office for "General Special" rate on "Shrubbery" agreed to by all the leading express companies. A general assortment of varieties packed light will weigh in the neighborhood of 300 to 350 pounds to the thousand plants.

TERMS.

Terms of sale will be: Small lots cash with order; if ordered to be shipped "C. O. D." send one-half cash. To responsible parties known to us, terms will be 30 days from invoice; unknown customers, if immediate shipment is desired, should remit about one-half with order and submit bank references, thus avoiding delay in shipment. We desire to be entirely reasonable on terms of payment, but no fair-minded business man will object to our insuring ourselves against loss or slow accounts.

We will book orders for shipment when designated by buyer, and customers of known responsibility will not be required to make any payment on order until shipping time.

SUBSTITUTIONS, INSPECTION.

We do not substitute without permission. In case you would like a substitute rather than have your order shipped short, it is well to so properly designate the second choice on your order. This is to the interest of customers to remember when ordering well along in the season or the latter part of the season.

All our stock is inspected by proper authority when it is dug, and we have never shipped a plant which has thereafter been found unclean (so far as we know). If you wish certificates of inspection, so specify on your order, please.

FACILITIES.

We have an ample cellar and cool storage room for keeping stock in the best condition (superior to anything on the coast) and every plant is handled and packed under cover.

We are the only concern on the Pacific Coast in a position and with the experience to successfully ship you roses four months of the year.

PLACE YOUR ORDERS AT ONCE AND BE SURE OF A PRIME LIST.

Quite a number of our customers will call to mind that seasons when they have put off ordering until the season was well along, we have frequently been unable to supply their full wants, making it unpleasant for them and ourselves.

GUARANTEE OF GENUINENESS.

While we exercise every possible care and diligence to have our plants true to label and hold ourselves in readiness, on proper proof, to replace any that may prove untrue to label, without charge or refund the amount paid for same, it is mutually agreed and understood between the purchaser and ourselves that this covers the full extent of our guarantee and responsibility in the premises.

COMPLAINTS.

If there are any just complaints to be made, of any nature whatever, the same must be forwarded to us **immediately upon receipt of the plants.**

GRADES.

A. This is our regular grade, and we believe good enough for anybody anywhere. All varieties except Teas and Hybrid Teas 24 to 30 inches of wood or more; Teas and Hybrid Teas, 16 to 24 inches of wood, or more.

AA. This grade is all-around extra-heavy stock, with no less than 30 inches of wood when dug.

B. This is a light grade of stock, not good enough to go in "A," but no culls or trash. Good for immediate local trade, a mail order business, bedding, forcing or growing in the nursery for one season to make extra heavy stuff.

C. We also make a grade not good enough to go in "B," which we call "C" grade; these plants will include everything as dug which do not go in the better grades; they are good for lining out, potting, etc., and rousing good value for the figure we make.

ALL ORDERS MUST BE IN MULTIPLES OF TEN.

NOTE.—The sizes specified are as stock is dug without being cut back or pruned; for the welfare of the stock we sometimes prune some sorts when dug, and when stock is not shipped until well along in the season, we generally remove any wood which ought to come off. We call attention to this, as after being pruned, some sorts might run under the specified size for that grade. All stock well branched.

B AND C GRADES will be subject to shipment whenever dug and sorted up. It is of course problematical as to quantity we will have of grades AA and B until stock is dug and graded, and orders for these grades will be subject to what we have—orders being filled in rotation according to when booked.

PRICE LIST.

Date of Issue, August 20, 1906.

PRICES SUBJECT TO CHANGE WITHOUT NOTICE AFTER DECEMBER 1.

Please make all orders in multiples of ten.

SPECIAL NOTICE.—The prices here named are for stock to be shipped during December or January. In case later shipment is desired a slight additional charge will be made, of which amount we will advise customers upon application with list of wants.

The following prices will apply to not less than ten of a sort ordered; if less than ten of a variety is ordered, the price will be five cents per plant above listed quotation. We are obliged to establish this ratio in order to cover extra cost of putting up and handling small orders of mixed lots, as well as to give some protection to buyers who handle plants in quantity.

"C" Grade \$3.50 per 100 (not less than 100 sold).

Orders cannot be booked in advance with any degree of certainty as to varieties for this grade. They will be packed up 20 in a bunch as fast as dug, and will not be resorted thereafter. Therefore, if you order "C" grade, the varieties will be whatever we may happen to have.

Make all orders in multiples of ten.

Varieties not priced we are unable to spare more of this season.

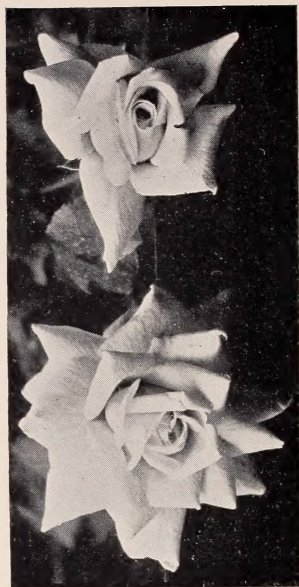

CLIMBING BELLE SIEBRECHT

Very distinct and grand.

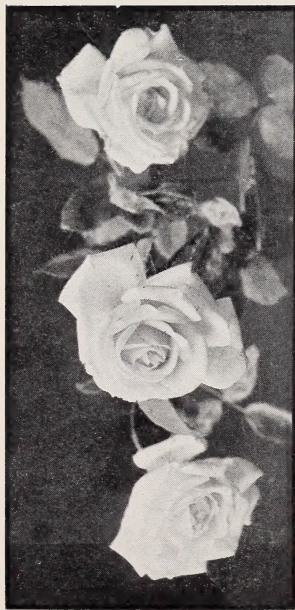

CLIO

One of Wm. Pauls & Son's recent introductions. Regarded as the best Pink Hybrid. Bloom is large as American Beauty.

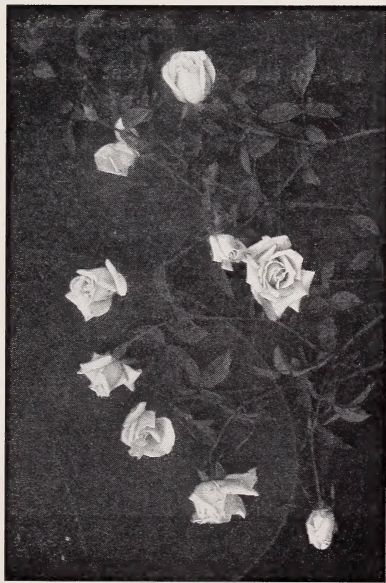

KAISERIN

Easily the Rose for the Millions.

SOU DU PRES. CARNOT

Nothing of More Beautiful and Delicate Texture in the
Rose Family.

COCHET

The Queen of Tea Roses for Cut Flowers Out-of-doors.

GRUSS AN TEPLITZ

The Reddest of Red Roses, and Blooms a
Little More than all the Time.

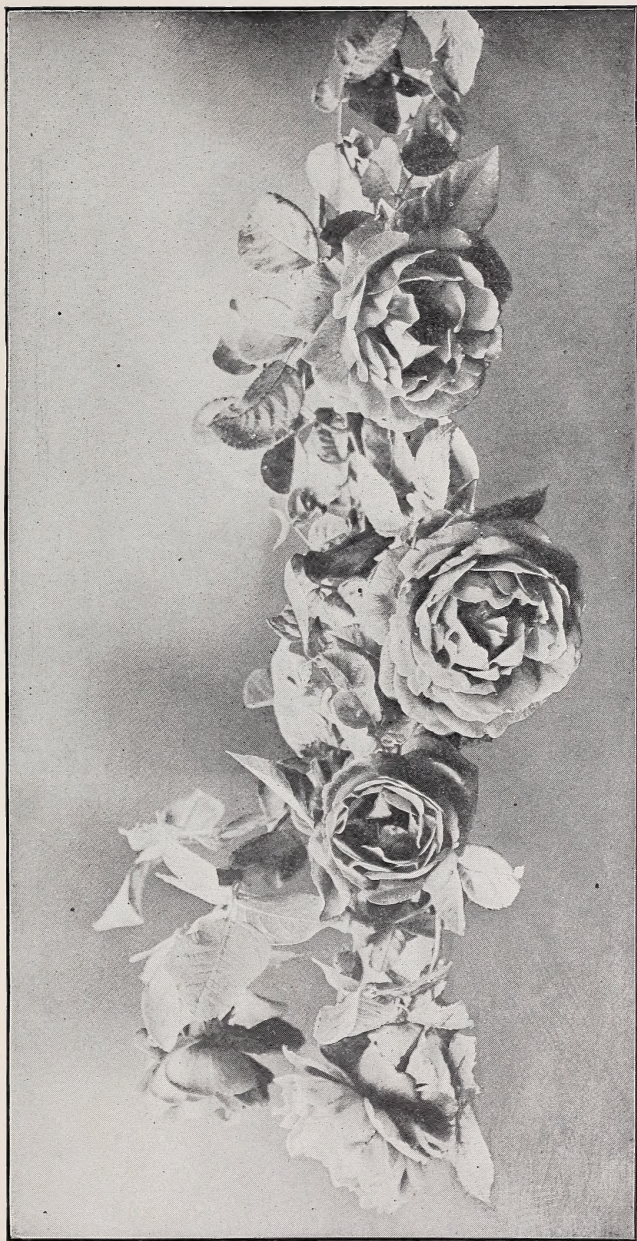

ULRICH BRUNNER

Also an illustration first page of cover.

We regard this as the best all round red H. P. grown. It might be called an everblooming Hybrid Perpetual.

MARSHALL P. WILDER

CLIMBING WOOTTON (H. T.)

One of the good things which has increased in popularity so fast that the demand each season seems to exceed the supply.
